

Raymax

The Raymax is a finger print activated lock.

The Raymax is able to hold 2 primary fingerprints and 98 secondary fingerprints.

Levels of access

Primary fingerprints are able to enrol and delete secondary fingerprints.

Secondary fingerprints can open the lock only.

Your Master Locksmith Association of Australia member will enrol the two primary fingers of your choice. Once the primary fingers are enrolled they can enrol and delete secondary fingerprints whenever they want.

- Totally stand alone
- Interfaces with rim lock 001/ stream latch

Finishes: Satin Chrome and Gold
